EDUCATION

- **Dayananda Sagar College of Engineering** Bengaluru, India
2021-2025
Bachelor in Engineering
- **Dayawati Modi Academy** Rampur, India
2021
CBSE Class 12 PCM (82.4%)
- **Shirdi Sai Public School** Moradabad, India
2019
CBSE Class 10 (92.1%)

SKILLS SUMMARY

- **Languages** JavaScript, TypeScript, C++, Node.js
- **Frameworks and Libraries** React, Node.js, Express.js, Next.js, Tailwind CSS
- **Databases and Tools** MongoDB, PostgreSQL, Git, GitHub, CI/CD, Docker, Kubernetes, WebSockets
- **Cloud Platforms** Basic understanding of AWS

EXPERIENCE

- **Qubeit.co - Freelancer** May'24-Sept'24
 - Developed a blockchain-based Coin Flip Game using React for the frontend, creating a user-friendly interface for game interactions with real-time updates via **WebSocket**, and built the backend with **Express** to implement RESTful APIs that handle game logic and secure data storage, ensuring efficient communication with the TON blockchain.

PROJECTS

- **E-commerce with Admin Dashboard** — **React, Node.js, Express, MongoDB, Razorpay** [GitHub](#) [Live](#)
 - * Engineered a full-stack e-commerce website enabling users to explore products, filter, sort, and manage cart items.
 - * Developed admin dashboard functionalities for uploading, deleting, and managing products and tracking store orders.
 - * Integrated multiple payment options, including Cash on Delivery and online payments Razorpay.
 - * Created and optimized backend APIs using Node.js and Express, with all data, including products, users, and orders, stored in MongoDB.
- **Medium Blogging Application** — **React, TypeScript, Express, PostgreSQL** [GitHub](#) [Live](#)
 - * Built a blogging platform inspired by Medium, utilizing React and TypeScript for a responsive user interface.
 - * Enabled users to create, publish, and read articles, with features like user authentication and real-time notifications.
 - * Implemented JWT for secure user authentication and deployed backend on Cloudflare Workers for scalability.
- **Payments Application** — **Next.js, Express.js, PostgreSQL** [GitHub](#)
 - * Developed a high-performance payment application with Next.js, leveraging server-side rendering and efficient API handling for fast, seamless user interactions
 - * Designed a scalable PostgreSQL schema using Prisma ORM, ensuring ACID-compliant transactions and data integrity in concurrent environments.
 - * Utilized JWT for authentication. Optimized codebase management with Turborepo, enhancing CI/CD workflows and maintainability.

HONORS/CERTIFICATES

- **Meta Front-End Developer Professional Certificate** [Certificate](#)

This 9-course program prepares learners for a career as a front-end developer.
- **HackerRank SQL (Intermediate) Certificate** [Certificate](#)

Demonstrated proficiency in intermediate SQL concepts, including complex queries, joins, and data manipulation through this certification.
- **Google Developer Student Club - Member** *DSI, Bengaluru*

GDSC is a technical community that combines all the students who learn, share ideas, and come up with viable projects that are likely to solve day-to-day problems, supported by Google.
